RESTORATION & CONSERVATION

RESTORATION ARCHITECT DUTIES

In Finland, state owned museum buildings and castles have an appointed restoration architect who (with their office) takes on all the repair, restoration, and conservation projects necessary in that property. This is done to provide continuity that ensures the architectural, historical, and cultural values of these important properties are preserved in all stages and scale of projects. The post is reappointed every few years.

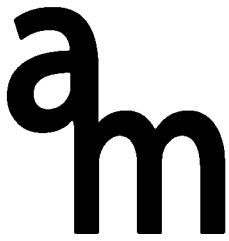

- 2020– Hvitträsk, Café (Gesellius, Lindgren, Saarinen 1903), project plan for renovation**
principal and architectural design, Kirkkonummi, Senate Properties (protected by law)
- 2019– Turku Castle, restoration architect (wide-ranging projects)**
principal and architectural design, Turku, Senate Properties, Western Finland
- 2014– Hvitträsk estate museum (Gesellius, Lindgren, Saarinen 1903), conservation and restoration**
restoration architect duties, principal and architectural design, Kirkkonummi, Senate Properties (protected by law)
- 2014–18 Tamminiemi, Urho Kekkonen Museum (Sigurd Frosterus and Gustaf Strengell 1904), conservation and restoration**
